

Abhishek Singh

Software Engineer — Frontend Developer

abhisheksingh969646@gmail.com — +91-7275569727 — [linkedin.com/in/abhishek-singh-101987230](https://www.linkedin.com/in/abhishek-singh-101987230)
<https://portfolio-50867.web.app> — Bhopal, India

PROFILE

A motivated engineering student with strong software engineering and frontend development skills. Proficient in JavaScript, HTML, CSS, and React, with excellent problem-solving abilities and a passion for learning emerging technologies.

EDUCATION

Bachelor of Technology in Computer Science

Vellore Institute of Technology, India

CGPA: 8.5/10

09/2021 - 06/2025

SKILLS

Programming: C++, Python

Frontend Development: HTML, CSS, JavaScript, ReactJS, NodeJS, Firebase

INTERNSHIPS

• Frontend Developer Intern

Lawyerr.ai

Jan 2025 – present

- Built a responsive website from scratch using ReactJS, ensuring cross-browser compatibility and optimized performance.
- Worked on JWT token expiration handling and improved authentication security.
- Implemented reusable components, enhancing development efficiency by 30%.
- Collaborated with the backend team to integrate RESTful APIs seamlessly.

PROJECTS

• AI Trip Planner

Gemini AI, Google Maps, Firestore

- Built an AI-powered trip planner that generates personalized travel plans based on user input.
- Integrated Google Maps and Photos APIs for navigation and dynamic destination visuals.
- Stored trip data in Firestore, allowing seamless syncing and user-specific recommendations.
- Implemented a recommendation system that suggests activities based on user preferences, improving trip planning efficiency.
- GitHub: <https://github.com/abhi-si/aiTripPlanner>
- Deployment: <https://ai-trip-planner-lac.vercel.app/>

• Express Food Delivery

Swiggy API, ReactJS

- Developed a food delivery app displaying real-time restaurant data using the Swiggy API.
- Solved CORS issues and enhanced API interaction, improving troubleshooting time by 30%.
- Implemented filtering and sorting options for better user experience.
- Optimized the UI to display restaurant details in a grid layout for easier navigation and a more visually appealing design.
- GitHub: <https://github.com/abhi-si/food-expressDelivery>
- Deployment: <https://food-express-delivery.vercel.app/>

KEY ACHIEVEMENTS

- Solved 150+ problems on GeeksforGeeks and LeetCode.
- Participated in hackathons by Coding Club and Android Club at VIT Bhopal.
- Core Member of the Fusion Club at VIT Bhopal.

ADDITIONAL INFORMATION

Hobbies: Cricket, Chess, Traveling, Movies

Languages: English, Hindi
